

About VVBGC

VVBGC (Växjö Värnamo Biomass Gasification Centre) is an R&D centre inviting interested parties to initiate and/or take part in collaborative research and demonstration projects:

- Gasification of biomass
- Feeding systems
- Hot gas cleaning
- IGCC
- GT
- Syngas upgrading
- Catalyst research
- BTL processes
- H2 for fuel cells

VVBGC also offers opportunities for education and training.
